

Harris Christiansen
STAT 350 - Project 1 - Statement Of Contribution

Group Members: Elaine Avgoustakis, Garrett Davidson, Elena Hutchison

Our group split the project up into 4 equal sections, by point value. Elaine took parts 1+2 (60 points), Elena took part 3 (50 points), I took part 4 (60 points), and Garrett took parts 5+6 (70 points).

Our group used GroupMe to communicate and was good with communicating across all weeks. It was our same group as the group section of Lab3, so we already knew each other and worked well together.

Ultimately, we created a single Google document with our combined results.
